HGS Philippines / Customer Service Representative - Healthcare account
March 2019 - Present, E. Rodriguez, Jr. Avenue, Corner Ortigas Ave, Quezon City, Metro Manila

- Created QA Scores tracker using MS Excel making the tracking and computing of QA scores and average easier.
- Created Attendance monitoring tracker using MS Excel. Helps to calculate the agent attendance scores percentage.
- Created a web-based calculator that calculates the end date of an insurance prior authorization for a pregnant member using HTML, CSS, JavaScript. It assisted the agents in calculating the end date by just typing the calculated number of days to the system. Instead of using the date grid to select the date.

TeleEye Philippines Inc / CCTV Installer - Installation Team
September 2018 – March 2019, Tomas Morato, Quezon City, Metro Manila

- Provided additional vision and security to the clients by installing CCTVs for different commercial establishments and households around Metro Manila and nearby provinces.

- Assisted in installing CCTVs for SM Malls. MOA Arena, SM Residence, Shell. Helps the security team monitor activities and increasing safety around the area.

Education

Bicol University / B.S. in Information Technology
June 2013 - April 2018, Legazpi City, Albay

- Created personnel information system for Pawa High School in Legazpi City, Albay. Enables faculty members to update personal data without having to involve HR.

- Contributed in building an E-voting system for Malabog National Highschool in Daraga, Albay. Making voting process electronically. Student government voting becomes easier and convenient compare to the previous paper system voting process.
